

2.6.1.1 Using Detail Containers

In Revit: From the Insert tab, click on Insert from File > Insert Views from File:

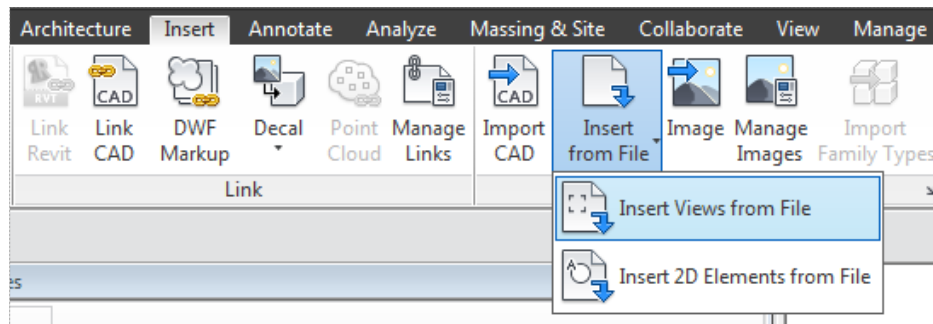

Figure Error! No text of specified style in document.-1

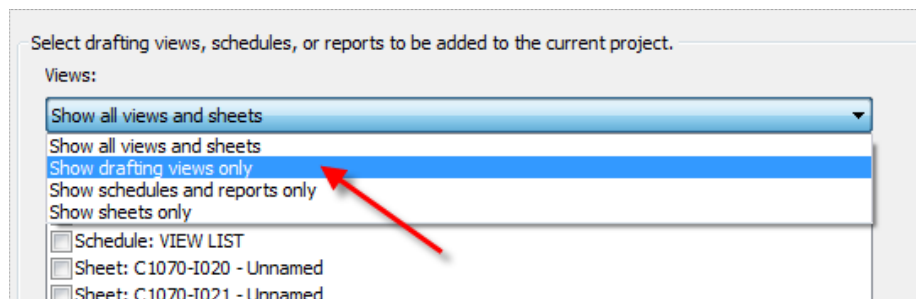

Figure Error! No text of specified style

Select one of the container files. Navigate to the appropriate detail container file. When the Insert Views dialog box appears, the default setting is to show all views and sheets that can be inserted:

"Views" list and change it to "Show Drafting Views Only".

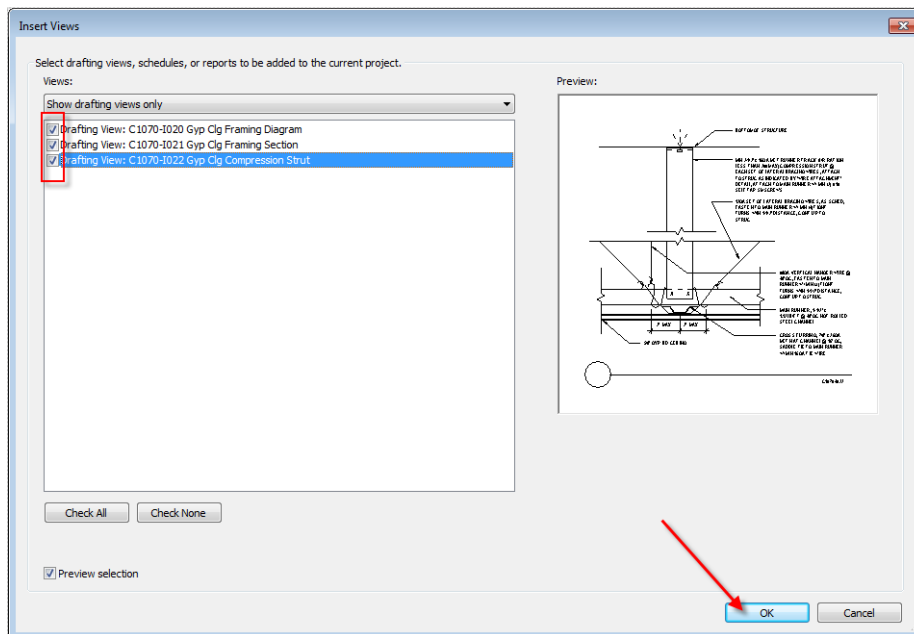

Figure Error! No text of

Select the drafting views you'd like to insert and then click "OK":
